ORBIT Studio

Digital experiences with gravity.

A graphic, typography-led website for a fictional digital studio. The experience brings selected work, project thinking and a practical starting point into one coherent system.

HOME / DESKTOP

SCOPE

5 page templates / responsive

DISCIPLINE

Visual design + front end

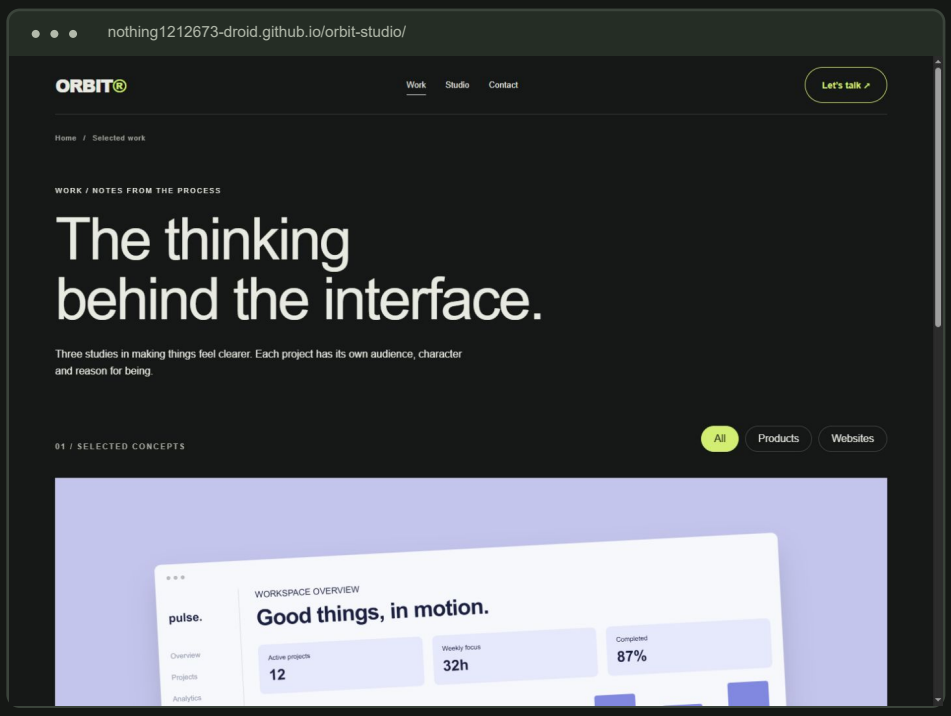

BUILD

HTML / CSS / JavaScript

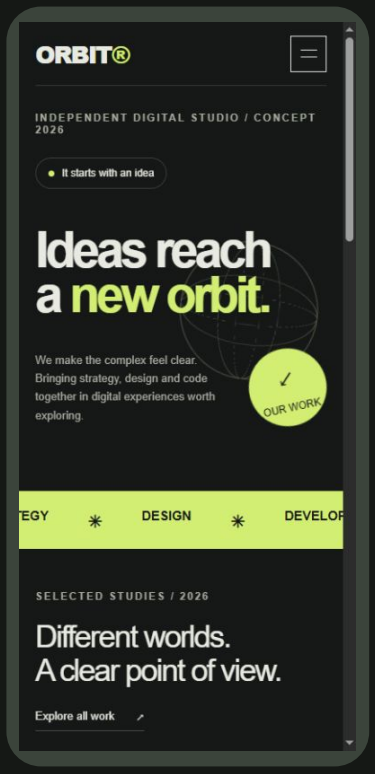

Self-initiated portfolio concept / Fictional brand

Work, process and a clear next step.

A filterable work index leads to dedicated case studies. Studio and contact pages explain the approach and help define a project.

SELECTED WORK / DESKTOP

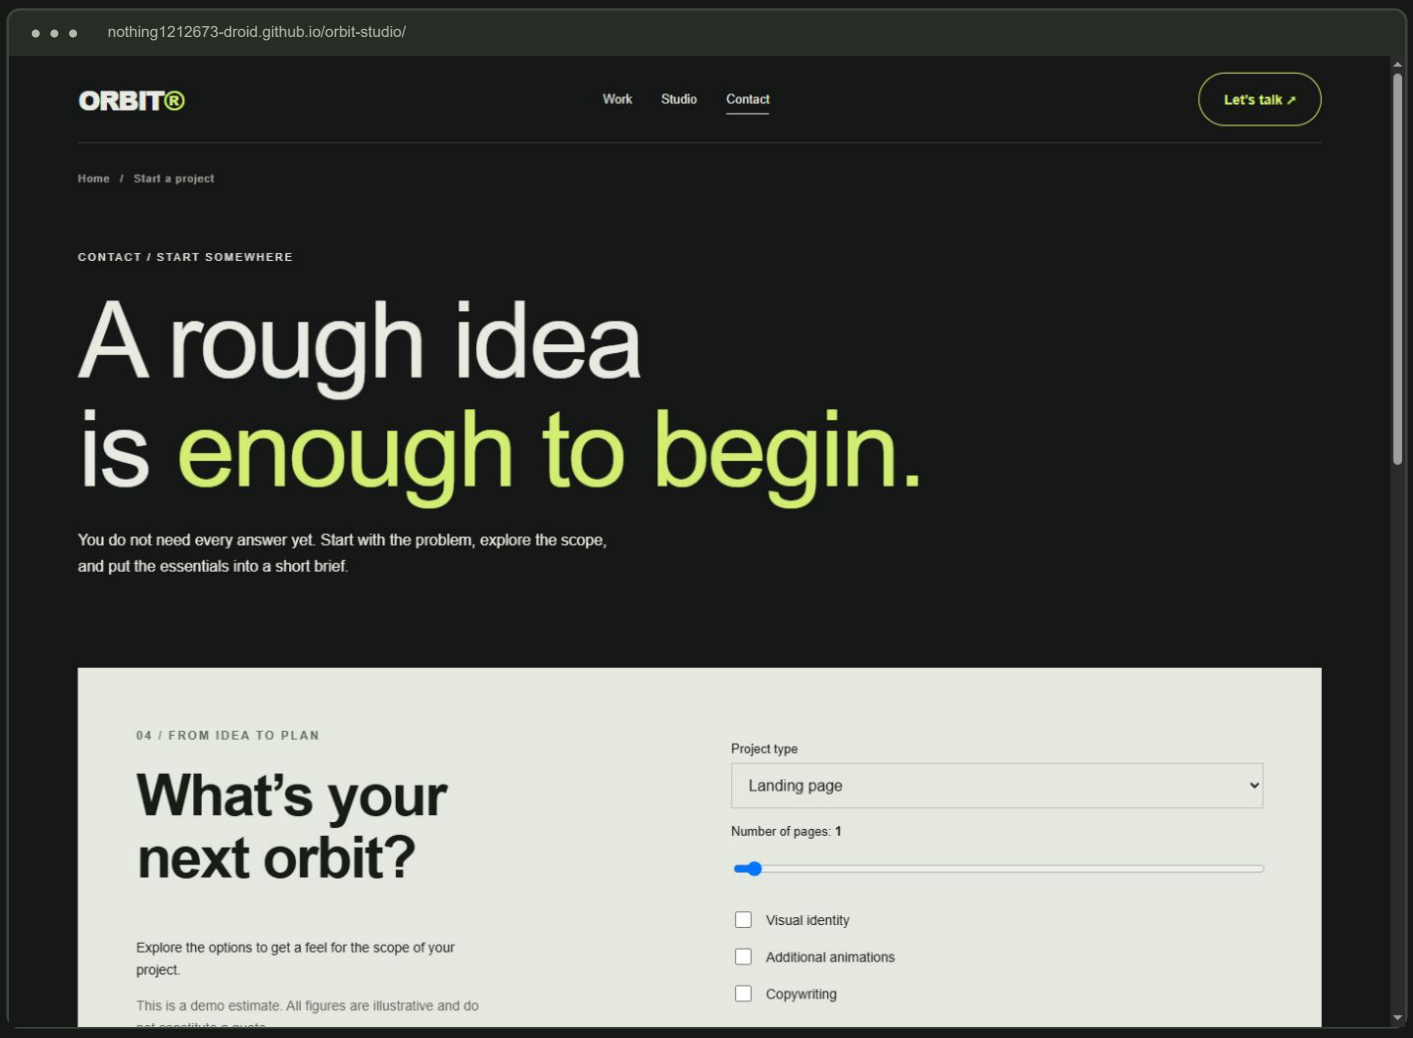

HOME / MOBILE

PAGE STRUCTURE

01	**Home**	Introduces the studio and selected concepts.
02	**Work**	Filters projects by products or websites.
03	**Case study**	One template with three distinct project stories.
04	**Studio**	Explains the principles and working process.
05	**Contact**	An interactive estimate and a saved project brief.

VISUAL DIRECTION Arial / oversized type

Details that make it feel alive.

CONTACT & ESTIMATE / DESKTOP

Work with context

Project filters and individual case study URLs make room for the challenge, approach and build.

A starting point for a brief

An illustrative scope calculator updates cost and timing. A project brief saves locally and downloads as text.

Movement with a purpose

Rotating orbit graphics, hover responses, reading progress and scroll reveals add character.

A complete static build

Responsive HTML, CSS and JavaScript with keyboard support and reduced-motion preferences.
